J2 / PLAYER EVALUATION

LONG ISLAND NETS

JORDAN LATHON

6’5" GUARD / DEFENSE / GUARD REBOUNDING / CONNECTIVE PLAY

THE POSSESSION-WINNING GUARD

Physical point-of-attack defense, completing stops on the glass, and creating the next advantage for teammates.

18-18	114.1	93.1	+1.0
2025-26 RECORD	PPG	PACE	NET RTG / 14TH

01 / TEAM FIT

Long Island’s backcourt combines established creators and changing Brooklyn assignment availability. Jordan provides a consistent physical defensive and connective role across those combinations.

02 / CURRENT ROTATION

Opening roster: 10 standard G League players, three two-way forwards. Perimeter contributors: Isaiah Wong, Dwight Murray Jr., Jordan Dingle and Dion Brown; NBA assignments can alter available lineups.

03 / DEFEND - SECURE - CONNECT

DEFEND	Pressure the ball, compete through screens and disrupt the action.
SECURE	Box out, rebound and prevent a second-chance possession.
CONNECT	Move the ball into the next advantage with minimal usage.

04 / WHY JORDAN & DEPLOYMENT

Mar. 22, 2025 vs Rip City: 14 assists, nine rebounds, five steals.
Combined 2024-25 G League AST/TO: 2.41.

Use Jordan beside a primary creator to contain the ball, finish stops with rebounds and push the next pass into the offense.

05 / FILM & NEXT STEP

Review three complete possessions: defensive action, rebound, next pass.

PROPOSED EVALUATION

Evaluate the defensive connector role alongside the current guards.
If the role translates on film, consider a targeted workout.
