CLEVELAND CHARGE

JORDAN LATHON

6’5" GUARD / DEFENSE / GUARD REBOUNDING / CONNECTIVE PLAY

THE POSSESSION-WINNING GUARD

A physical perimeter defender who rebounds his position and moves the ball to the next creator without needing a scoring-first role.

23-13	122.6	127.6	122.0
2025-26 RECORD	PPG / 2ND	OFF RTG / 2ND	DEF RTG / 20TH

01 / THE TEAM FIT

Cleveland’s offense ranked second in 2025-26; its defense ranked 20th.

A lower-usage guard could help finish stops and preserve advantages for scorers.

02 / THE CURRENT ROTATION

Opening roster: 13 players. Guards: Austin, Jones, McNeil, Richmond, Robinson, Strickland and Yaacov. Two-way frontcourt: Minix, Omier, Udeh Jr.

Jordan would be evaluated alongside, not instead of, the primary creators.

03 / DEFEND - SECURE - CONNECT

DEFEND	Compete at the point of attack and navigate physical matchups.
SECURE	Box out, rebound and finish the defensive possession.
CONNECT	Advance, reverse or pass to the next scorer without holding the ball.

04 / PRODUCTION & DEPLOYMENT

Mar. 22, 2025 vs Rip City: 14 assists, nine rebounds, five steals.

2024-25 combined G League AST/TO: 2.41.

2023-24 Morehead: 15.6 PPG, 6.0 RPG, 38.4% 3PT; First-Team All-OVC.

Pair Jordan with a primary creator for targeted defensive matchups.

05 / EVALUATION & NEXT STEP

Review three full possessions showing containment, the rebound and next pass.

PROPOSED EVALUATION

Assess the role against Cleveland’s current guard rotation.

If the film supports the fit, consider a targeted workout.
